

PROFILE SUMMARY

Motivated Full Stack Developer skilled in React.js, Node.js, JWT,Python, Java,SQL and MongoDB with hands-on experience through internships and real-world projects. Experienced in web development, data analytics, machine learning, and AI-based applications. Passionate about building scalable solutions and continuously learning modern technologies.

TECHNICAL SKILLS

- **Frontend:**HTML5, CSS3, JavaScript (ES6+), React.js, Responsive Design,Bootstrap,jQuery
- **Backend:**Node.js, Express.js, REST APIs,JWT Authentication
- **Programming Languages:**Python, JavaScript,Java
- **Databases:**MySQL, PostgreSQL, MongoDB
- **Data Analytics & AI:**Data Analysis, EDA, Machine Learning, Generative AI, LLM Tools (ChatGPT, Claude)
- **Tools & Platforms:**Git, GitHub, VS Code, Jupyter Notebook, Postman,Vercel,Figma

EDUCATION

SRI MUTHUKUMARAN INSTITUTE OF TECHNOLOGY

B.Tech(Artificial Intelligence and Data Science)

2022-26

CGPA-8.15

INTERNSHIP

MERN Stack Developer Intern-Inetz Technology

- Developed full-stack web application features using React.js, Node.js, Express.js, and SQL
- Worked on API integration, CRUD operations, and responsive UI development

Data Science Intern - Retech Solutions

- Performed exploratory data analysis (EDA), data preprocessing, and machine learning tasks using Python
- Assisted in model building and data visualization

Data Science Intern | Careers 360DigiTMG

- Worked on data cleaning, analysis, and machine learning model evaluation
- Applied Python for data processing and predictive analysis

PROJECTS

Expense Tracker Application | MERN Stack-[link](#)

- Developed a full-stack expense tracking application using React.js, Node.js, Express.js, and SQL
- Implemented user authentication, CRUD operations, and responsive dashboard UI

Generative AI-Based Cognitive Analysis System

- Built an AI-powered system for cognitive pattern analysis and early-stage Alzheimer's detection
- Applied machine learning and Generative AI techniques for prediction and analysis

NovelNexus-Ecommerce website|MERN STACK-[link](#)

- Responsive frontend eCommerce website built using the MERN stack.
- Attractive UI with product browsing, cart, and modern design features.

House Price Prediction System

- Built a machine learning model for house price prediction using Python
- Performed EDA, feature engineering, and predictive analysis for model optimization

CERTIFICATES

- IBM SkillsBuild – Fundamentals of Data Analytics
- Anapaty Codeemy Technologies – Data Analytics
- Novitech Solutions – Data Analytics Masterclass
- Publised IEEE paper in ICCSP'26 Conference in “Generative AI Based Cognitive Twin for Early Alzheimer’s Detection and Monitoring
